

News Release from the **TIPS Political Action Network**

May 4, 2006

Arlington, VA – The **TIPS Political Action Network** today announced the release of its new “Regulatory Notification Service” for TPAN members.

This feature allows our members to stay current on jurisdiction regulations that may have an impact on them. Whenever any change is made to a law sheet for any of the 77 jurisdictions we cover members who have selected to receive notifications for that jurisdiction will get an email notification. In addition, we have added a category to the Law Sheets entitled "Pending Regulations", so members may be made aware of any pending regulatory or legislative action.

This new feature just one of many exciting features TPAN has planned for the future.

For additional information, please contact TPAN via our website email link, or via phone at 703-524-1200 (DC area), or 800-438-8477 (Long Distance).

The TIPS Political Action Network is a non-partisan political involvement program of Health Communications, Inc. Financial contributions to TPAN cannot be accepted.
